The core business of a school leader, is to create a learning environment that has a balance of safe conditions for learning, rigorous intellectual challenge and lots of fun, to enable all learners to achieve their optimum.

As Principal of Riverton Primary School, I lead the school in a collaborative manner building on strengths of staff and students, within a culture of trust and high expectations. We also enjoy each other's company.

I expect and support teachers to provide quality differentiated learning experiences that focus on what students need to know next, as they ensure students have solid foundation skills in literacy and numeracy.

I lead with a relentless focus on building strong learners.

Cheryl Glenie M.Ed., B.Ed, Dip.T.
Principal Riverton Primary School
