

Riverton Primary School

Attendance improvement plan 2022

Last updated: April 2022

Students must come to school every day the school is open. This is known as regular attendance.

Students are more likely to want to come to school and achieve if they feel:

- included
- valued
- respected
- supported.

Students who miss school often

The [attendance policy](#) defines the following groups of students as at risk because of how often they miss school.

- **Habitual non-attendance:** a student misses 5 to 9 school days in a term. This is for any reason.
- **Chronic non-attendance:** a student misses 10 or more days in a term. This is for any reason.

For students in these groups, we assess the level of risk to their learning and wellbeing. When a student is at risk we will talk with the family about the issues.

During the COVID-19 pandemic all follow up of attendance issues is filtered through the current SA Health and Department for Education directives.

Our school's vision

All students have a right to an education. This gives them the best opportunity to reach their full potential. We have a safe, welcoming and inclusive environment where students can learn and grow. Each student is engaged in their learning. Parents and carers are important partners in this process.

We ensure the school provides a learning environment that encourages, success, enjoyment, safety and positive relationships, through providing quality differentiated teaching and learning for every child.

We keep a check on any students who might fall behind. We work with parents, carers and students to find out why someone is missing school. We provide supports that are specific to each student's needs.

How we follow up if a student misses school

This is an overview of how we follow up student absences. We might change these steps to fit in with a family's needs. A quick follow up helps us to manage risks early and reduce absences.

All attendance data will be analysed and for patterns of poor attendance.

All attendance concerns will be followed up, at the latest, on the 3rd consecutive days absence. At the discretion of the principal parents/carers may be required to provide a medical certificate for all student absences.

1. If a student misses school, we record their absence. We also record the reason given by the parent or carer.
2. If we receive no reason, we follow up with the parent or carer. This is usually by phone or text (SMS).
3. If the absences continue beyond 3 days or there are concerns raised by the absence, we keep following up. This might be by phone, email, meeting or a letter.
 - We support the family to look at any issues that stop the student from going to school.
 - If needed, we connect the family to other services. For example student support services.

Our data

At Riverton Primary School our student attendance records help us to plan how we improve school attendance. We routinely analyse data. We look at patterns. For example the attendance of different year levels. We also look at individual student attendance.

Our attendance rate has decreased by 4.85% for the whole school from since 2018. A significant impact on the declining attendance rate of the past two years, has been the COVID-19 pandemic. As a school we continue to undertake all necessary actions for chronic and habitual non-attenders.

Our attendance target for 2022 remains due to the ongoing pandemic impact is 90%.

Table 1: School attendance data for full year from 2018 to 2021

Year level	2018	2019	2020	2021
R	92.6%	90.1%	91.3%	88.7%
1	93.8%	90.2%	88.8%	80%
2	93.3%	92.7%	91.2%	88.3%
3	91.2%	91.8%	90.8%	86.3%
4	91.1%	88.9%	90.3%	89.8%
5	90.4%	92.7%	91.7%	91.2%
6	94.2%	92.2%	91.3%	91.3%
7	90.3%	93.4%	90.5%	80.8%
Total	92.25%	91.5%	90.8%	87.4%

Our approach to improving attendance

At Riverton Primary School our attendance strategies are guided by the South Australian Department for Education's attendance policy.

We will plan, implement and review the following attendance improvement actions. We will do this with our governing council, staff, students, families and local community.

Promote

We will promote the importance of education from the earliest years of life and throughout the schooling years as a school community priority of the highest value.

Our actions

- Communicate why going to school every day matters. Explain how absences affect learning, wellbeing and future success.
- Share how education helps students to build routines and habits.
- Set up attendance expectations. Share this with families. Lead by example.
- Include information about student attendance in school reports.
- Share why going to school every day matters when there is a big change in a student's life.
- Discuss attendance in staff meetings.

Assess

We will assess patterns of non-attendance and circumstances. We will use this to inform the development of appropriate targeted, intensive and coordinated interventions.

Our actions

- Record daily absence. Make sure it is recorded correctly. Import the data into the department's reporting system (EDSAS).
- Set up a process for quick and consistent recording and follow up of all absences.
- Analyse attendance data for trends and patterns of absence.
- Review attendance data with staff. Discuss students at risk.
- Check on all students with individual learning plans. This includes students who have agreed changes to their attendance. For example an exemption.
- Create ways to let staff know about any worrying student absences.
- Check on all students who have habitual and chronic non-attendance. Find out what support they might need.

Engage

We will actively engage and include all children, young people and their families in education and interventions which support attendance.

Our actions

- Create a welcoming and inclusive school.
- Engage and challenge students. Allow for different student abilities and needs. Modify the curriculum and teaching practices if needed.
- Set up programs that support student wellbeing and school connections.
- Support students to build resilience.
- Support students to develop relationships.
- Build staff skills to talk with students and families about attendance issues.
- Build staff skills to provide an inclusive, relevant and engaging curriculum.
- Support students identified as habitual and chronic non-attenders as early as possible. This might include home visits.
- Encourage staff to talk with families and students about attendance.
- Create safe and supportive learning spaces. This is so all students can learn and engage.
- Involve students in the design and delivery of their learning.
- Build student voice into school decision-making.
- Ask students and staff for feedback about the learning environment.

Support

We will provide support to address the barriers to attendance, learning and wellbeing. We will make sure there is inclusive support for children and young people so they can be physically present and engaged in education.

Our actions

- As early as possible, support students who have attendance and wellbeing issues.
- Work with Student Support Services on student attendance issues.
- Set up attendance improvement or learning plans for students with attendance issues.
- Work with families to find out why students are away from school. Make sure the support fits their individual needs.
- Support Aboriginal students with attendance issues. Make sure the support fits the student's individual and cultural needs.
- Support children and young people in care with attendance issues. Make sure the support fits the student's needs.
- Support students with disability who have attendance issues. Make sure the support fits the student's needs.
- Set up a process to follow-up attendance issues that students and families tell us about.
- Set up supports when there are big changes in a student's life. Support students to plan for their education needs now and in the future.

Monitor

We will monitor attendance to make sure that risks are identified, supports are in place, and progress is monitored.

Our actions

- Check on students we are supporting. Share how the student is going with their family.
- Make sure staff understand their duty of care to check on and follow up attendance issues.
- Set up ways for staff to escalate attendance issues.

Evaluate

We will evaluate the need for further or ongoing interventions, referrals for external support and mandatory notifications.

Our actions

- Work with the Social Worker - Truancy for extra attendance support.
- Connect families to external services for support.
- Train staff and volunteers in mandatory reporting of attendance issues.
- Keep in contact with families of students who have attendance issues.
- Work with local community groups and agencies to support students to go to school.
